

Eirin Gonzales

The Proactive Front End Engineer

I build user-friendly websites and web applications using clean, semantic and high-quality code to produce a software that is user-centered, accessible and performant.

SchoolApply

02/2018 – 12/2018

Tasks/Achievements

- Translate UI designs into HTML, Bootstrap 4, Sass and jQuery
- Build website using WebFlow
- Manage data using MSSQL

EDUCATION

Programming & Web Development

Free Code Camp, Team Treehouse, Udemy

06/2015 – Present

Courses

- Web Development
- WordPress Dev't
- Database Management
- Full Stack JS Apps

BS IT w/ Specialization in Web and Mobile Applications Development

FEU - Institute of Technology

06/2013 – 02/2016

Manila, Philippines

Courses

- HTML5, CSS3, JavaScript
- C, C++, Java
- Database Management
- Web Design

SKILLS

HTML5, CSS3, SCSS

Bootstrap 4, Material UI

React & Redux

Express

Mongoose

MySQL, MSSQL

jQuery

PROJECTS

Portfolio Website - <https://eiringonzalescodes.com/>
(11/2016 – 03/2017)

- This is a desktop and mobile-friendly portfolio website powered by HTML5, CSS3, Javascript and PHP. I used a JavaScript library here, jQuery.

FCC Front End & Full Stack Apps -
<https://eiringonzalescodes.com/portfolio.php>
(05/2017 – 03/2018)

- You can see the full stack applications I built using React, Redux, Express, Socket and Mongoose in this page. And I also posted some of the front end projects I built with React there.

<https://www.disrupted.co/> (08/2018 – 09/2018)

- When I was still working on SchoolApply, I built the website using WebFlow.

ACHIEVEMENTS

Free Code Camp: Front End Development Certificate
(05/2017 – Present)

I successfully completed Free Code Camp's Front End Development Program.

Free Code Camp: Back End Development Certificate
(03/2018 – Present)

I successfully completed freeCodeCamp's Back End Development Certification, representing approximately 400 hours of coursework.
